PROFESSIONAL SUMMARY

BS Information Technology graduate with hands-on experience in web development, IT support, systems administration, and data management. Skilled in technical troubleshooting, problem-solving, database management, and generative AI. Seeking an entry-level IT position where I can apply my skills, contribute to real-world projects, and grow professionally.

WORK EXPERIENCE

Pampanga HighSchool

IT Support Intern

February - May 2026

San Fernando, Pampanga

- Performed hardware maintenance, Windows 10 reinstallation, and network troubleshooting to support school IT operations.
- Managed and encoded student academic records, enrollment data, and administrative files in the School Management System, maintaining accurate records.
- Designed a digital schematic campus map to improve navigation for students and visitors.

Mexico Motorized Tricycle Operator's Permit

Encoder

June - July 2026

Mexico, Pampanga

- Encoded and processed permit records and applicant data, maintaining accurate and organized documentation.

ThinkTank Manila

Personal Assistant & Commercial Talent

Manila

- Assisted with payroll processing and verified employee salary information to support accurate payroll records.
- Participated in advertising and promotional projects as commercial talent.

PROJECTS

Online Enrollment System

<https://enrollment-system-woad.vercel.app/enroll>

Full-Stack Web Developer | Individual Project

- Designed and developed a web-based enrollment system to streamline student registration and reduce errors associated with manual enrollment processes.
- Built the frontend and backend using React, Node.js, and Express.js, integrating RESTful APIs with a PostgreSQL database through Prisma ORM.
- Implemented authentication, data validation, duplicate-enrollment prevention, audit logging, and student data management to improve system reliability and data integrity.
- Tech Stack - React, Vite, Node.js, Express.js, PostgreSQL, Prisma, REST API, Git/GitHub, Postman
